# Plumbing Division

The plumbing industry is a basic and substantial part of every developed economy due to the need for clean water, and proper collection and transport of wastes. Given the importance of water in our lives, our designers and installers are extremely careful in the treatment of a resource that is scarce worldwide. Team DOUMMAR puts lots of emphasis to ensure we provide a plumbing where pipes, drains fittings, valves, valve assemblies, and devices we install in a building for the distribution of water for drinking, heating and washing, and the removal of waterborne wastes are well sized and securely installed.

## Operations and Maintenance (O&M)

The types of building repair and maintenance service works are:

Day to day repairs service facilities

Annual repairs

Special repairs

In addition to above, additions and alterations Works in the buildings, Supply & maintenance of furniture & furnishing articles should also be done.

## Periodic Maintenance

Periodic Maintenance include service repairs which arises from time to time in the services of the buildings such as in plumbing works, water supply, etc. Examples for such repairs are removing chokage of drainage pipes, manholes, restoration of water supply, replacement of blown fuses, repairs to faulty switches, watering of plants, lawn mowing, hedge cutting, sweeping of leaf falls etc. The purpose of this maintenance service is to ensure satisfactory continuous functioning of various services in the buildings.

## Annual Maintenance

This maintenance service is carried out to maintain the aesthetics of buildings and services as well as to preserve their life, some works like white washing, distemperring, painting, cleaning of lines, tanks etc. are carried out periodically. These works are planned on year to year basis.

## Maintenance

Special repairs of building are undertaken to replace the existing parts of buildings and services which get deteriorated on ageing of buildings. It is necessary to prevent the structure & services from deterioration and restore it back to its original conditions to the extent possible.

## Refurbishment

The works of additions/alterations are carried out in buildings to suit the special requirements of occupants for functional efficiency. The facilities in buildings are updated by carrying out such works.

# Preventive Maintenance

Preventive maintenance is carried out to avoid breakdown of machinery and occurrence of maintenance problems in buildings and services. Works of preventive maintenance are carried out on the basis of regular inspection survey. Preventive maintenance includes works to prevent deterioration of building parts (which depends on climatic conditions), pollution, fungi, the insect attack, subsidence, flooding, intensity of usage, careless usage, seepage etc.

Our performance-based asset management services include preventive maintenance, asset life extension and operation services of utilities within the plant. Our focus is on minimizing maintenance costs and optimizing plant availability with an emphasis on safety and improving asset performance. Our value added services include condition-monitoring, plant shut down maintenance and commissioning support.

# SUSTAINABILITY

SAFETY MANAGEMENT QUALITY  
MANAGEMENT LOCALIZATION

# Health, Safety & Environment (QHSE)

**LONG-STANDING COMMITMENT** ARKAN has a longstanding commitment to the highest standards for health and safety of our employees, clients, contractors, suppliers and the general public as well as for the protection of the environment in the communities in which we live and work

**COMPANY HSE POLICY** Our strong commitment towards HSE is embodied in a clearly stated HSE Policy. Compliance to our HSE Policy is vigorously promoted through training and education and strictly monitored through regularly inspection and audit

**EMPLOYEE HSE AWARENESS** HSE Competence Development programs are in place & being implemented across ARKAN. Our Management conducts regular Site Visits & Cross Functional Inspections as tools to ensure that HSE Policy and standards are complied upon and that relevant HSE messages are clearly communicated to all workforces.

We have our HSE annual Training Plan, which are being strictly implemented and closely monitored. We have also developed an inhouse HSE Training Center to enable the regular HSE training and education of our workforce.

**SAFETY OBSERVATION REPORT SYSTEM**  
At ARKAN, We systematically monitor HSE practices daily using our Safety Observation Report System. Through our SOR System, good practices and improvement opportunities are documented and resolved on time. It enables closer collaboration between our HSE personnel and Project Management team towards implementing strong HSE practices in our work sites. It also reinforces positive safety behaviors, which will lead to have strong Safety Culture within the Company.

# Quality Management

ARKAN promotes a strong Quality culture within the organization. We firmly believe that Customer Satisfaction is our key to sustain our growth and that Quality serves a crucial role in ensuring such satisfaction. To align our Quality practices with world-class standards.

## CORPORATE PERFORMANCE MANAGEMENT (CPM)

Our CPM framework is designed with the aim of building a high performance culture for both individual and teams so that they jointly take the responsibility of improving the business processes on a continuous basis. We adopted the Balanced Scorecard / OGSM across all functions in setting our Key Performance Indicators (KPIs) and integrated to our Quality Management System.

**QUALITY      AUDIT      CONTINUAL IMPROVEMENT**

As an advocate of continual improvement, ARKAN focuses on initiatives that address as a minimum: (1) The improvement of our organization's internal efficiency; (2) The customer requirements; and (3) The level of performance that our market sector needs. We established objectives and targets (driven by the top management) at relevant functions, conduct audits and regularly monitor, measure, analyze and evaluate our performance against the set targets

# EMPLOYEE TRAINING & INVOLVEMENT RISKS AND OPPORTUNITIES MANAGEMENT

Understanding and finding a way to build the likelihood of success and lessen the probability of failure is one of the keys to ensure our business success. As an organization, we deal with uncertainties that are present in any of our development intervention by establishing and implementing our approach to manage risks and opportunities. This approach increases our peoples' risk awareness, ensures the appropriate management of risks, and makes the business unit risk profiles transparent, thus enabling risks to be compared and aggregated and allowing one to take an appropriate approach to risk management. In this way, our organization is in a better position to take informed decisions once these uncertainties are identified and help us make more profits and fewer losses.

# Our Capability

A hand is shown from the bottom left, cupping a glowing globe of the Earth. The globe is the central focus, with a bright light source behind it creating a lens flare effect. The background is a clear blue sky with some light clouds. The text is centered over the globe.

**OUR PEOPLE**

## Quality People

A Global Group with Multi Culture Work Force ARKAN has close to 1500 plus workforce from more than 12 nationalities working together to deliver safe, reliable and quality services to petro-chemical and industrial companies in Saudi Arabia.

## Our People Philosophy

Our people reflect who we are as a company. They shape our future. They define our destiny. Thus, we put strong emphasis on hiring and retaining competent people. We believe that as we take care of our people, they will also take care of our business. Yet we also ensure that those who positively contribute to the growth of our business are the one who are retained, recognized and rewarded

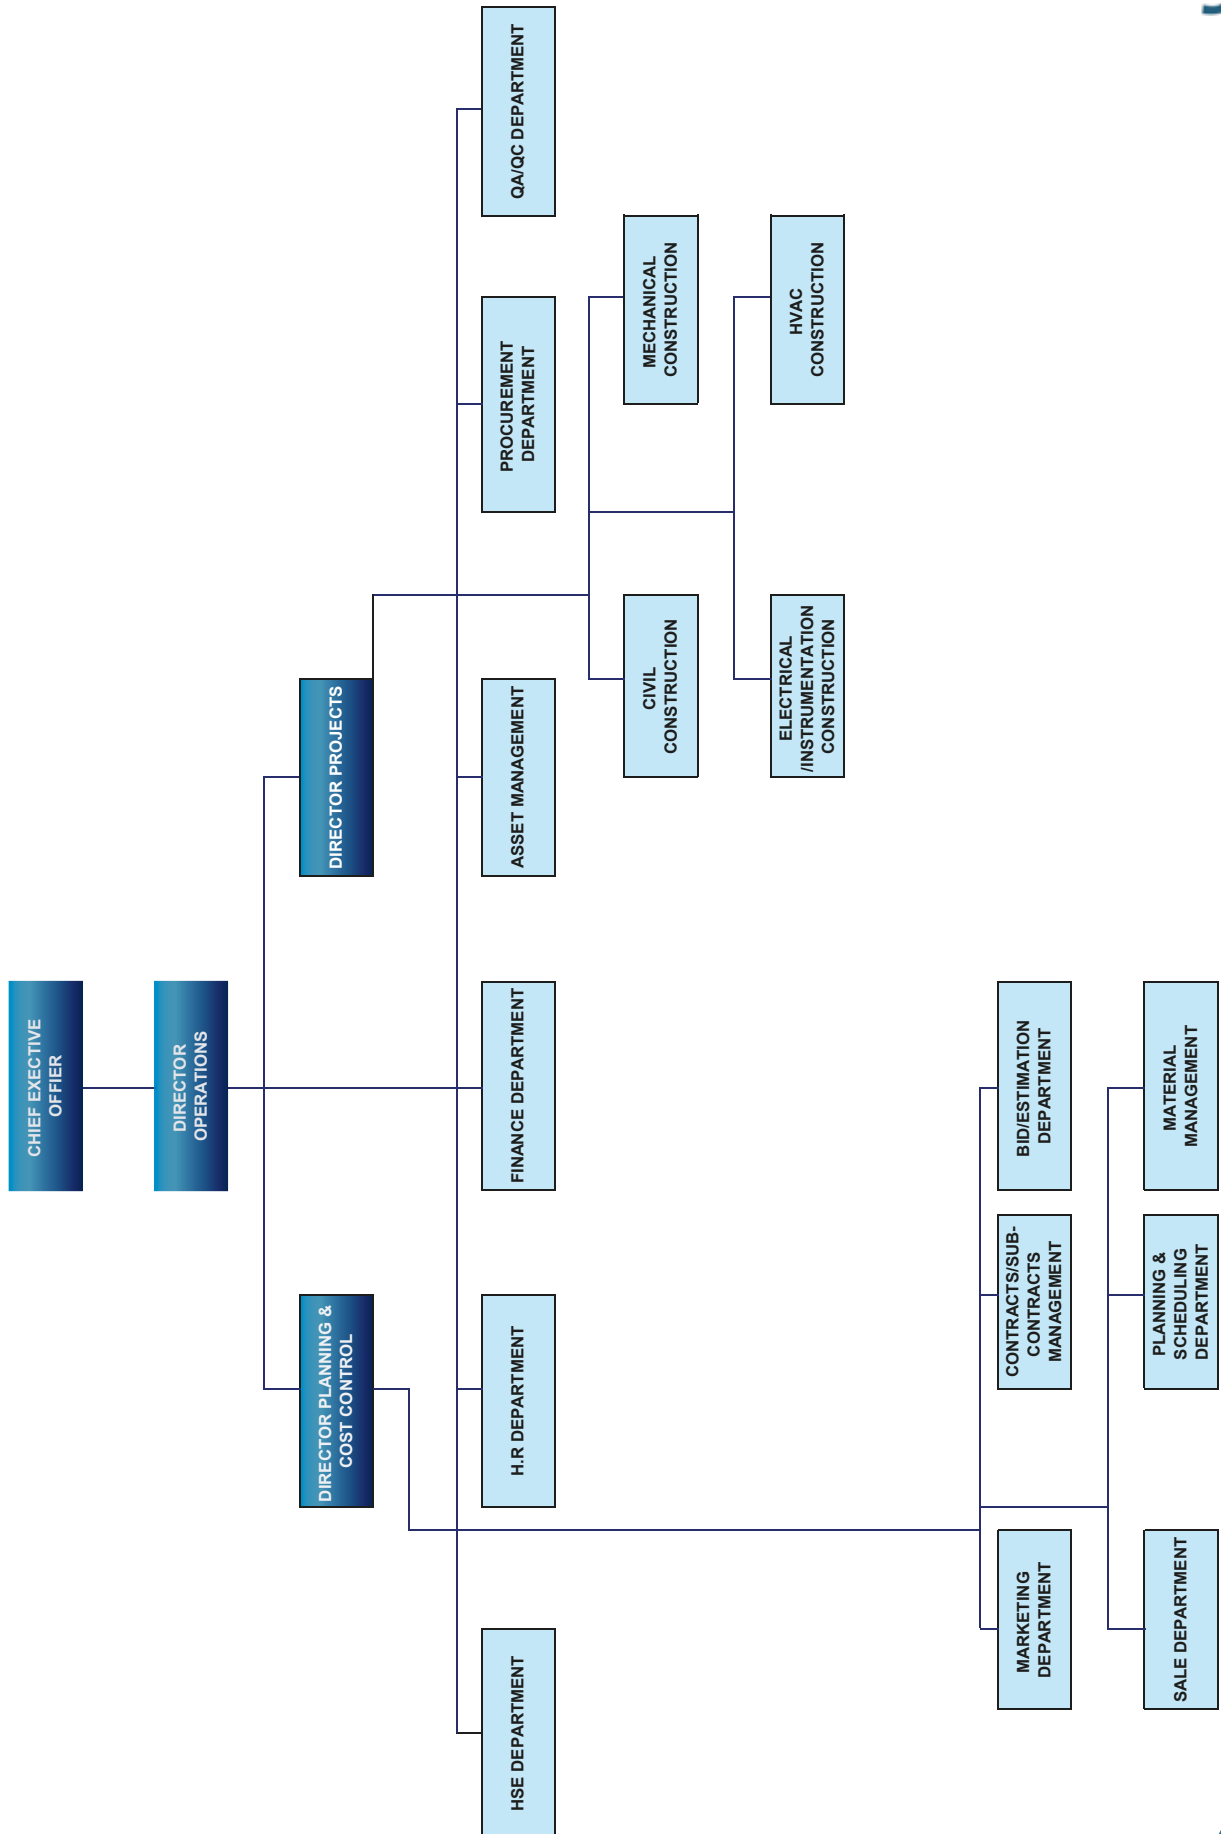

## Training & Development

Our people reflect who we are as a company. They shape our future. They define our destiny. Thus, we put strong emphasis on hiring and retaining competent people. We believe that as we take care of our people, they will also take care of our business. Yet we also ensure that those who positively contribute to the growth of our business are the one who are retained, recognized and rewarded

## Our Facilities

ARKAN has laydown yards in Kingdom of Saudi Arabia to support Construction activities.

### Registration Approval Letter

June 14, 2023

**Attention :** ARKAN AL AFDAL CONTRACTING COMPANY

**CR Number :** 1010777166

**Supplier Type:** Service Provider Only

**Country :** Saudi Arabia

We are pleased to inform you that ARKAN AL AFDAL CONTRACTING COMPANY is now registered in the Saudi Aramco Supplier Management System under Vendor Code No. 10110564, provided your company continues to meet all relevant Saudi Arabian and Saudi Aramco standards.

This registration, however, should not be construed as a commitment by Saudi Aramco to procure from you. Being registered as a supplier only grants your company the opportunity, along with other registered sources, to respond to requests for submitting proposals in accordance with Saudi Aramco's established policies and procedures. All procurement instruments including but not limited to service contracts, purchase agreements, or purchase orders will be issued based on the name and address included in your commercial registration (CR), as stated in your Supplier Registration.

Saudi Aramco wishes to remind you that being recognized as a supplier carries with it serious obligations and responsibilities to act in a legal and ethical manner. We wish to remind you of the Saudi Aramco Supplier Code of Conduct (SCOC) which you acknowledged. Failure to abide by the principles set forth in the SCOC can result in adverse actions being taken by Saudi Aramco against you including suspension of you as a supplier. Saudi Aramco also expects each of its suppliers to satisfy each of the requirements of any procurement instrument which might be placed and to act responsibly and reliably as a supply chain supplier.

Material Suppliers should apply for Saudi Aramco Supplier Portal access by forwarding a request to [portal-registration@aramco.com](mailto:portal-registration@aramco.com). The Supplier Portal is the main electronic business tool used between Saudi Aramco and its suppliers and serves to improve the flow and accuracy of key supply chain information.

For further information or assistance please contact the Saudi Aramco Supplier Help Desk by forwarding a request to [SupplierHelpDesk@aramco.com](mailto:SupplierHelpDesk@aramco.com) or via the unified call center 800-116-1168 for In-Kingdom suppliers or +966 (11) 290-8950 for Out-of-Kingdom suppliers.

Moamar Khazal Al Usaimi, Supervisor  
**Supplier Registration Unit**  
**Supplier Relationship Management Div**

It is the responsibility of the supplier to update Saudi Aramco Supplier Registration Profile through Ariba for the following:

1. Change of Name / Commercial Registration Number / Address / Owner(s)
2. Any change of the supplier location
3. Discontinue supply of approved commodities (9COMs and 9CATS)

This is an electronically generated letter by Saudi Aramco. To verify Supplier approval status, please contact Supplier Help Desk at [supplierhelpdesk@aramco.com](mailto:supplierhelpdesk@aramco.com)
